## TEXAS HOLD'EM & OMAHA JACKPOTS

### QUADS CRACKED & OMAHA PRIMARY JACKPOT QUALIFICATION:

This is paid when a player makes Four of Kind or better and loses, subject to the following rules:

- 1) This is the primary jackpot, and pays up to a total of \$20,000 for Quads Cracked in our Hold'em, or the posted progressive value in Omaha.
- 2) The winning and losing players must use two cards from their hands. When four of a kind, the player must have a pocket pair (in Hold'em).
- 3) Only the hand winner and the second best hand may be considered.

### ACES CRACKED JACKPOT QUALIFICATION (ELIGIBLE TEXAS HOLD'EM ONLY):

Aces Cracked jackpots will be available daily to the first five players who receive Pocket Aces and win no portion of the pot.

Qualification also subject to the following rules:

- 1) At least two players, including the player with Pocket Aces, must reach showdown.
- 2) Up to five \$100 Aces Cracked Jackpots will be available for players to win starting at 0600 daily.
- 3) Aces Cracked is available for Texas Hold'em games only.
- 4) Each qualifying player receives a \$100 jackpot. When two players qualify during the same hand, they each receive \$100 if enough daily jackpots remain; otherwise, qualifying players split the jackpot.

### MADE HAND JACKPOT QUALIFICATION (ELIGIBLE TEXAS HOLD'EM ONLY):

Each Four of a Kind, each suit's Straight Flush, and each suit's Royal Flush has a jackpot available to be won each day by the first player who makes a qualifying hand, subject to the following rules:

- 1) The player must make Four of Kind, Straight Flush, or a Royal flush, have live cards when the hand ends, and must use both their hole cards in their best five card hand. For a Four of a Kind jackpot, the player must have a pocket pair. For a Straight Flush or Royal Flush, the player must have two suited cards that play in the qualifying hand. Each Four of a Kind rank (A, 2, 3, 4, 5, 6, 7, 8, 9, 10, Jack, Queen, and King) will have one daily jackpot. All Straight Flushes (excluding Royal Flushes) in each suit will have one daily jackpot. Each Royal Flush for the four suits will have one daily jackpot.
- 2) Each Made Hand has one daily jackpot of at least \$25; only the first player who qualifies with that Hand may win. All jackpots increase or reset at 0600 based on the table below:

Tertiary Jackpot	Seeding Made Hands	Adding to Made Hands
\$15,000 or more	\$100	\$25
\$10,000 - \$14,999	\$50	\$25
\$0 - \$9,999	\$25	\$25

#### General Rules:

The game being played must be either Texas Hold'em or Omaha, and meet all eligibility requirements:

- 1) Players may qualify for Made Hand Jackpots any time after the flop; for all other jackpots, the hands must reach showdown. The dealer will extract \$1 to fund all Jackpots once each hand reaches the flop.
- 2) At least four players must have been dealt cards.
- 3) At least two players must reach showdown (for Aces Cracked and primary bad beats).
- 4) All qualifying hands must be properly displayed face up on the table at the completion of the hand.
- 5) The players must use their best five card hands for consideration.
- 6) At all times, Hollywood Casino will consider the integrity of the game and adherence to these rules their highest priority. The decision of the Poker Supervisor or Poker Manager is final.
