

FOUR CARD PRIME

Four Card Poker

Players are dealt five cards to make the best 4-card poker hand to play against the dealer's hand. The dealer makes the best 4-card poker hand from six cards.

Aces Baby

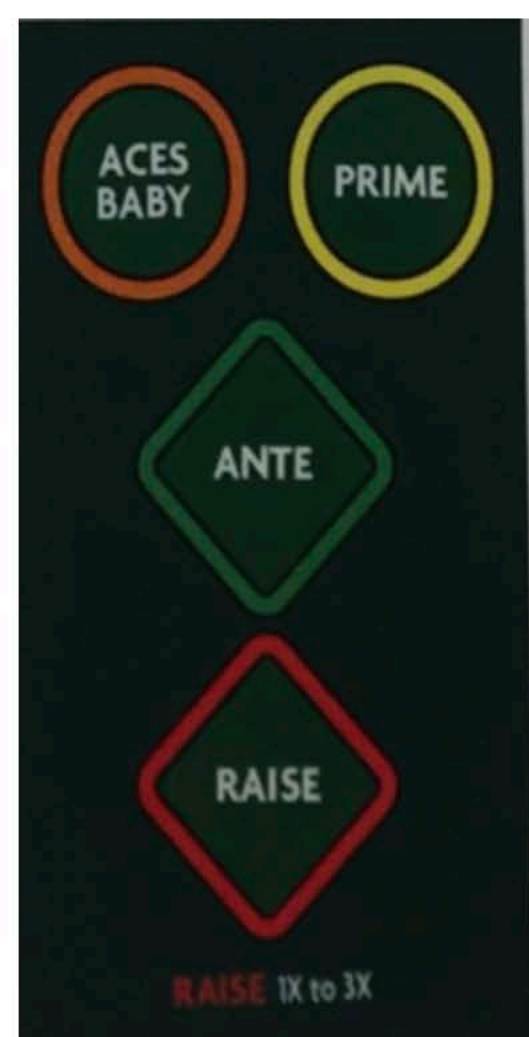

This optional wager wins with a Pair of Aces or better.

Prime

This optional wager is based on all five cards the player is dealt, winning 1 to 1 if four of five cards are all the same color and greater odds if all five cards are of the same color. Two paytables are available.

Primary Game-Ante and Raise

Ante is the required bet to begin the game. Players may raise up to 3 times their Ante to play the hand against the dealer. The Ante bet wins even money and has a bonus for three-of-a-kind or better, when the player's hand wins. It also features a Bad beat Bonus, when losing with a three-of-a-kind or better.
